

Stacker Motor Tree Guarding

Stacker Motor Tree Guarding

Applicable to all stacker models with older style motor tree guarding.

Stacker Motor Tree Guarding

Boltable, hinged guard with latest guarding style and security door replaces one section of existing motor tree guarding.

Stacker Motor Tree Guarding

- Provides maintenance personnel with an easier way to access the motor tree area.
- Provides better visibility of motor tree components.

Stacker Motor Tree Guarding

Remove old tree guarding and install new guard.

Stacker Motor Tree Guarding

As the difficulty range is rated as easy, installation can be performed by the customer's plant personnel; however, assistance by a MarquipWardUnited field service technician is recommended due to safety issues with the stacker guarding.

Note: Typically requires customer to supply one mechanic, one electrician, and one general maintenance employee for 8 hours.

CAUTION: Before working on machine, perform lock-out procedure per Manual Operation Section.
